Project Appleseed is a nationwide program that teaches participants the traditional rifle marksmanship skills that have been passed down from generation to generation and also reconnects today's Americans with the people and events of colonial America. Participants are taught fundamental rifle marksmanship skills that allow a Rifleman to be accurate out to 500 yards using a standard rifle with iron sights and surplus ammunition. Marksmanship is an American skill that has been part of this nation from its very first days. Come to an Appleseed to uphold this tradition and pass it on for generations to come!
