**This event will be the first of two regional rallies intended to prepare taxpayers for the "March on Albany" on a date in April to be announced when 100,000 New Yorkers will demand the resignation of Andrew Cuomo, and those in the legislature who, at a time of high emotion and trauma, when our nation was grieving the horror of the Connecticut mass killing, chose to attack the basic rights of taxpaying citizens for the sole purpose of appeasing the egotistical arrogance of the self-absorbed Andrew Cuomo, who was more interested in advancing his political career than allowing due process and affording voters the opportunity to weigh in on the issues.**
