When marksmanship met history, and the heritage began...

Testimonials From Female Appleseed Participants

“MamaJean”, MO had this to say:

“I recently attended an Appleseed BootCamp with my son and daughter at Osage Beach and I'm hooked. My son told me and my daughter about the camp; he had already planned to attend and invited us to go along. My son's and daughter know guns and I was a good shot when I was younger and we went target shooting on the desert but that was twenty years ago! I'm 73 and thought the men there might not want to be bothered with an "older woman" but... I couldn't have been more wrong. They were great! Everyone made sure I had what I needed, was comfortable, not getting tired (!!!), etc. On a personal level, I think Appleseed is one of the finest things going on in our country and I feel privileged to be a part of it! My son and daughter both are becoming active in the organization and I'm getting in there too!”

“Old Glory”, Wisconsin

“I went reluctantly to my first Appleseed with my husband at the encouragement of my mother-in-law, who said "Go, be with your husband". She has been happily married for over 65 years and is my role model for a good marriage. So when she talks, I listen.

Fantastic experience! Met great people. All respectful and polite. Learned ALOT about how to shoot a rifle, and the happy surprise were the American heritage talks.”

“Susan”, MO

“These people helped me discover a talent for something I didn't even know I have, how cool is that? In fact, I think they enjoyed it as much as my family and I. I'm debating on what I can do that will be most useful to Appleseed, as I have to do my part to help.”

“Kendra”, TX

“Everyone at Appleseed is so approachable and willing to give you advice on what might make your shooting better. That speaks volumes!! So many times in life people feel like they are in competition with each other, and Appleseed is not like that. Everyone wants to help each other.”

“Kori”, MO

“I recommend Appleseed to novice shooters, expert riflemen, and people young and old. Not only do you learn how to shoot (and be accurate), but you get lessons in the history of our America, our country...all that she has lost and sacrificed only to be regained by our brave men and women who fight everyday for the freedoms that many of us take for granted. I left the Appleseed with a renewed respect and love for my country. I also left feeling a new closeness to my husband (who, BTW, made RIFLEMAN!!) We did this together...and it was fun!”

“Big Mama”, TN

“(The) Appleseed Project is a lifechanging experience. We invited all of our children and their spouses to an Appleseed Shoot and one of our daughter-in-laws who had very little experience with a rifle at all, made Rifleman. She had no bad habits to break and she is proof that the instruction given really works.”

The women of Appleseed agree; a weekend at your local range, learning the heritage we all share, is a wonderful way to spend the weekend with your loved ones!
