

## DYI .22 Rimfire Speed Loaders-Prepper

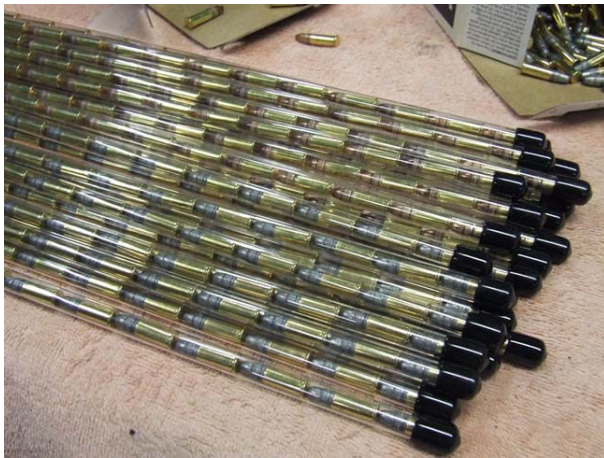

Please note, this is not my original idea. It was liberated from the interwebs. Unfortunately, I've lost the URL of the source, so I cannot provide proper credit.

### Material List

McMaster-Carr - <http://www.mcmaster.com/#>

Tube: 2044T41 (Available with red square end cap - 2044T61)

Caps: 9753K16 (this is the cat. no. for the black caps in the pictures)

### Construction & Operation

Cut the plastic tube to the length you desire or that will fill your tube magazine (a .22 LR cartridge is just under 1" long). Clean off the burrs after cutting, attach one end cap, fill the tube with ammo, then attach the other end cap.

To load the tube magazine, remove the plunger (inner magazine tube) and pour the .22 LR rounds from the plastic speed prepper into the tube magazine, then reinsert the plunger and lock it into place.

Rinse and repeat.
