Project Appleseed™ is a nationwide program that teaches rifle marksmanship skills that have been passed down from generation to generation and reconnects Americans with the people and events of colonial America. Participants are taught the disciplines that allow a Rifleman to be accurate out to 500 yards\* using a standard rifle with iron sights and surplus ammunition. This ability is traditionally known as mastering the “Rifleman's Quarter Mile.” The technology may have improved, but the skills and the passion to preserve Liberty are part of our heritage. So join us, hear some little-known Revolutionary War history and help us pass on the traditions of the American Rifleman.
