

PRESIDENT'S MESSAGE

QUARTERLY CLUB MEETING

The quarterly club meeting is Tuesday, April 7 at 7 pm. Nominations will be held for Vice President, Secretary, Sr Executive Officer and Executive Officer. We will also have a discussion on installing a few concrete benches on the rifle side of the 100 yard Open Range for anyone that would like to comment.

4-H STATE RIFLE COMPETITION

We had approximately 68 youth shooters compete in small bore and air rifle. It was a perfect weather day and as reported further on in the newsletter, our Hernando shooters and teams had an awesome day! I'd like to take this opportunity to thank our 4-H leaders, coaches, parents and club range officers for their hard work in helping our 4-H youth achieve these goals.

4-H TRAP SHOOT BENEFIT

On April 11 the Hernando Sportsman's 4-H Club will hold their semi-annual trap tournament. This event has turned out to be a tremendous amount of fun. I have enjoyed shooting with the 4-H and club members as well as supporting their efforts. Our 4-h Club, members and parents, leaders and coaches, have been a great in our many events. Without their participation, we wouldn't have the "people power" to produce gun shows, machine gun shoots and many other club fundraising events. Even if you're not a shotgun shooter, a small donation payable to the Hernando Sportsman's 4-H Club would be greatly appreciated by our youth group.

APPLESEED RIFLE

The national weekend for Appleseed Rifle is April 18 & 19. If you've never participated in this great program, please give some serious thought to joining them for a weekend of rifle instruction and learning about our country's history. You can register on line at www.appleseed.org or go to the club web site under Events for the Appleseed information. This is a wonderful way to spend a weekend or even just a day with your children.

Come out and enjoy your range,
Randie Rickert, President
