

# Join Project Appleseed™ for Storytime of the First Day of the American Revolution

**M**any of us first learn the events of the Revolutionary War at school. We invite you to experience a LibertySeed™ event, where we will recount the dramatic events leading up to the birth of our nation. We take you back to April 19, 1775, the most pivotal day in American history and reveal historical facts that might surprise you.

## Where and When:

The real story is far more inspiring:

- Who actually fired the legendary “Shot Heard Round the World”?
- What is the name of the little-known location where the Revolutionary War truly began?
- How did the colonists manage to break the British line at Concord’s North Bridge in less than 2 minutes?

Project Appleseed is a nationwide non-profit program that teaches fundamental marksmanship combined with stories of the American Revolution.
