# The Appleseed Project

History, Heritage and  
Marksmanship

**Kansas 2011  
information  
and event schedule**

### Our Instructors

Appleseed instructors are among the best qualified in the country. All instructors receive over 125 hours of training and are continuously tested before running an Appleseed event. Our attendees can be assured of the highest level of safety and a rich learning experience.

### Family Friendly

Appleseed is much more than a day or two at the range. For a child, Appleseed is about learning safety, gaining responsibility and confidence, sharing an experience with mom and dad, and learning history that is often lacking in our schools.

### What is Appleseed?

Project Appleseed teaches the fundamentals of rifle marksmanship and intertwines these skills with the history and heritage of our great nation. Rifle skills are becoming a lost art in modern America, but we feel that they are as important today as they were on April 19th, 1775 when the first shots were fired on Lexington Green.

Attending an Appleseed re-acquaints participants with the past and offers them the knowledge and rifle skills necessary to help ensure freedom for the future.

### We Make Riflemen

Throughout American history, a Rifleman has been defined as a marksman capable of consistently hitting targets to 500 yards. When fighting for our country's freedom, our forefathers accurately shot almost that far with a flintlock rifle.

Shouldn't you be able to do the same today with a modern rifle?
