September 24-25	Osage Beach
September 24-25	Washburn
October 1-2	Bates City
October 22-23	Osage Beach

Additional shoots to be added!

Who we are and what we're about:

The Appleseed Program is designed to take you from being a simple rifle owner to being a true rifleman. All throughout American history, the rifleman has been defined as a marksman capable of hitting targets 500 yards away — no ifs, ands or buts about it. This 500-yard range is traditionally known as "the rifleman's quarter-mile;" a rifleman can hit just about any target he can see. This skill was particularly evident in the birth of our country, and was the difference in winning the Revolutionary War.

What You Will Learn:

Six Steps To Firing A Shot, sling usage, sight adjustment, Inches, Minutes, Clicks, and your Heritage as an American Rifleman. Much of the training takes place on reduced-size targets at 25 meters, so there's lots of shooting without a lot of walking to check targets.

To register or for more information visit **www.appleseedinfo.org**

What To Bring:

Your Favorite Rifle, 400 Rounds of Ammo (.22 Rimfire - 8 mm), eye and ear protection.

Time: 8:30AM Local | Pre-Reg Cost: One Day \$45 - Two Days \$70 |
Range Fee - Varies

Quick Answers to Appleseed Questions

What is Project Appleseed? It is a program to train people in basic rifle marksmanship using rack-grade rifles and surplus ball ammo. A program to revitalize the tradition of the Rifleman.

Who should attend? Appleseed is perfect for teaching brand new or experienced shooters. There is something for all to learn.

Why "Appleseed"? "Appleseed" comes from Johnny Appleseed, the American folk hero who walked the country planting apple seeds, not for himself, but so future generations would benefit.

What is your real agenda? Teaching Marksmanship and the Rifleman tradition, and respect for our Revolutionary War history. That is all we are about.

What kind of rifle do I need? You can use any safe firearm, which can be accurately shot from the shoulder, from .22 to .32 (8mm). While semi-auto friendly, we are not unfriendly to bolt guns.

What kinds of sights are allowed? All sighting systems are welcome, however aperture ("peep") sights are preferred and scopes are only recommended for those who can not see the sights due to vision issues.

Which caliber is best? They all are. Appleseed is not caliber specific.

How much ammo do I need? It is best to bring around 200 - 250 rounds per day.

How much does it cost to attend? \$70 for two days with pre-registration and that includes a free T-shirt. \$45 for one day only. Some ranges charge a minimal range fee, usually \$5-10/day. There is a \$10 walk on fee if you do not pre-register. Ladies, shooters under 21 shoot free as well as Active Duty/Reserve/Guard with MIL ID.

Why military rifles? Because they are fast and easy to reload.

Do I need a sling? Yes. A military style web sling. Nothing fancy is required.

Can I use a bipod? No, we teach the basic shooting positions: standing, sitting/kneeling and prone, using a sling.

Do you have a checklist of things to do in preparation for a shoot? Yes, look at: www.appleseedinfo.org

Can kids come? Yes, responsible junior shooters are welcome and *shoot free*.

Where can I get more information? There are schedules, equipment lists and much more on our website.

Where are shoots scheduled this year? We will have several hundred shoots this year nationwide.

Can I just show up and register for a shoot? Yes, but there is a \$10 walk-on fee. Pre-registration allows us to schedule our instructors most effectively. If you do not have internet access, send your entry fee of \$45/\$70 along with your shirt size, name, address and phone number, date and place you want to register for to: RWVA, POB 756, Ramseur, NC 27316

Appleseed:

Common folks teaching other common folks to shoot Uncommonly well!
