

**Dear Tennessee Volunteer,**

I want to thank you for agreeing to help getting the Appleseed Message out to your family, friends and others in your life. We aren't asking for a lot time. Just think of those you know that enjoy shooting, hunting or history or might really get something out of an Appleseed weekend (or two) and pass on one of these pamphlets. And tell them a little of how Appleseed changed you; how much better you shoot, a little of the history that you learned more about or just the great time you had today.

If you do this small thing it can make a big difference in someone's life and even help make this country a better place. Think about the Instructors that you met; they volunteer a lot of their time. And think about the people that you heard about in the History; how much did *they* give?

If you need more pamphlets please contact me and I'll send more to you. If you want to do more than hand out pamphlets, let me know. If there is someone who has more questions, refer them to me. There is always something that can be done to help, even if you don't have a lot of time.

Many Thanks,  
Charlie Mangum
