Appleseed Shoot

Fresno Rifle and Pistol Club
Fresno, CA 93619

March 14-15, 2009

Come on out and experience the fastest growing shooting program in America, an "Appleseed Shoot", presented by the RWVA, *Revolutionary War Veterans Association*, a 501.c.3 non-profit, all-volunteer organization.

At an Appleseed, you will learn the uniquely American skill of being a Rifleman: someone who is capable of shooting their rifle accurately out to 500 yards, with a rack rifle, sling, and iron sights. no fancy, special equipment is required. Appleseeds are comfortable, family-friendly, environments for men, women, and children alike; and everyone, from the experienced competitive shooter to the never-touched-a-rifle-before beginner, will benefit from the clear instruction and individual coaching provided by the dedicated, all-volunteer staff.

A Rifleman also understands the importance of their American Heritage. So, at an Appleseed, you will be introduced to the people and events that were pivotal in the birth of this nation when, on April 19th, 1775, there was fired "the shot heard around the world".

Appleseed Instructors will not only teach you how to shoot your rifle much more accurately than you ever though you could, they will also bring our Nation's early history alive. They'll share amazing stories—that you never heard in school—about the first generation of Americans, how their Rifleman skills served them and how they accomplished the impossible, giving us liberty and a Free Nation.

Do you know...

When and where the Revolutionary War broke out (hint: it's not where you might think; not at Lexington, nor at Concord)?

*Who **really** fired the first shot on Lexington Green?*

*What caused the well-trained British army to break and run—not retreat, but **run**—after two minutes of concentrated firing?*

You'll learn the answers—and a lot more about our heritage—when you come and experience the magic of *Appleseed*!

April 19, 1775
Preserving the Tradition
www.rwva.org
