Can You Uphold the American Tradition of Excellence in Rifle Shooting?

If you want to see how you measure up, try this: Use any rifle, with any sights. A sling is recommended, but don't use a bench rest, bipod, or sand bags.

Shoot three shots at each target. Shots touching a scoring ring count the higher value. Add 'em up.

38-45: Pretty good! You might be a Rifleman already. Come to an Appleseed shooting clinic, polish up your skills, and *help others learn to shoot as well as you do.*

30-37: Better than average. Come to an Appleseed shooting clinic and turn "better than average" into "Rifleman."

20-29: Fair. But you can learn how to do much better at an Appleseed shooting clinic.

0-19: Lots of room to improve. There's no better place to improve than at an Appleseed shooting clinic. Find out how much more fun it is to hit, than it is to miss!

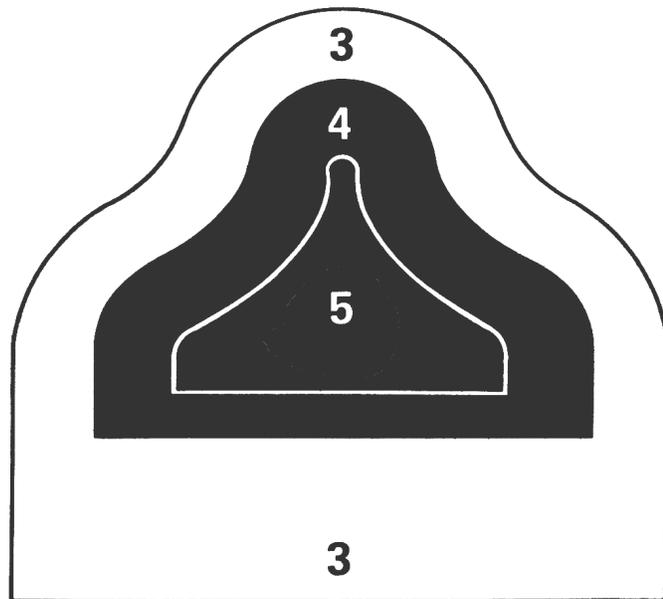

Appleseed is as family-friendly as it gets! People under 21 shoot for free, as do active military members, reservists, and guardsmen.

Just read this:

"... my 16 yr old daughter Kelli really benefited from the instruction. The very next weekend she competed in the Arkansas Jr. Olympic rifle match. She placed 3rd in both kneeling and prone individually (out of 93 competitors) with a 2nd place overall team finish. Appleseed Works!"

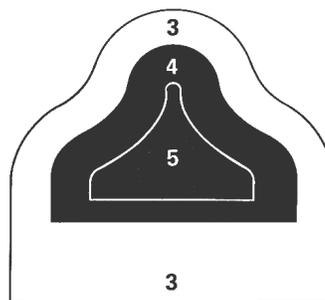

knubby, host of Oklahoma's
March 8-9, 2008, Appleseed

Simulated 100 yards

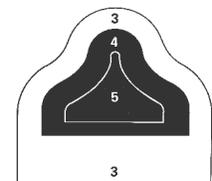

Take 3 shots standing

Simulated 200 yards

Take 3 shots sitting
or kneeling

Simulated 300 yards

Take 3 shots
prone

Learn the six steps to firing a (good) shot. Get the full benefit out of your rifle's sling. Hear some American history like it's never told in school. Find out how to dependably hit that 300-yard target, and do the same at 400 and 500 yards. Meet great people!

More at www.appleseedinfo.org. The RWVA is an all-volunteer, 501(c)(3) organization. Participation meets CMP requirements.
